## INTRODUCTION

The Thomas Register of Manufacturers is a searchable directory of manufacturers of a wide variety of products. Patrons can use the Thomas Register to build very specific lists of manufacturers, more specific lists than more general business directory databases could build. Manufacturer profiles include a description of the company, a list of all products manufactured, a list of all certifications held by the manufacturer, contact information, company size, and more.

## GETTING STARTED

Access the database through the *Database Access* page, then click the *Supplier Discovery* link.

The screenshot shows the top navigation bar of the ThomasNet.com website. The navigation menu includes links for SUPPLIER DISCOVERY (highlighted with a red box), PRODUCT CATALOGS, CAD MODELS, DIVERSITY & QUALITY, CUSTOM QUOTES®, INDUSTRY NEWS, ADVERTISE HERE, TOM'S BLOG, and MY ACCOUNT. Below the navigation bar is a green banner with the text "WHERE SERIOUS BUYERS FIND QUALIFIED SUPPLIERS." and "ThomasNet.com® Today's Thomas Register.®" with a "VIDEO TOUR ▶" button. At the bottom of the banner, it says "BUYERS & ENGINEERS" and "One FREE platform. Six powerful applications." There is also a search bar with the placeholder text "Search all of ThomasNet.com" and a "Search" button.

## SUPPLIER DISCOVERY

- Enter your product category into the *Search For* box. As you type, the database will provide suggestions. Click on the appropriate suggestion.
- Enter your geography criteria in the *Optional: Add supplier qualifications* section, either by typing in a zip code or by selecting a state from the drop-down menu.
- Select other criteria as needed, including certifications and minority ownership.
- When you have selected all the criteria you need, hit *View Suppliers* at the bottom.
